## WHY MESSAGE?

*"Sometimes the best antidote to corporate stress is hands-on management. So say people at Apple Computer, NBC, Johnson & Johnson, Merrill Lynch, Wells Fargo Bank and a host of other companies that have hired massage therapists to rejuvenate frazzled employees by kneading them..."*  
~FORTUNE MAGAZINE

*"Stressed out employees find office massages a balm...chair massage, which kneads the neck, head, shoulders and back can go a long way toward easing tension and improving morale. Touching is a basic need, as powerful as the need for food and sleep, and the office is as good a place as any to do it."* ~THE WALL STREET JOURNAL

*"It has been proven through extensive research that massage can consistently improve performance and productivity in the workplace as well as decrease the amount of absenteeism and job related accidents."*
